Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Bacteriological Technology for Physicians: With Seventy-Two Figures in the Text The first edition of this text-book was issued in 1885, as a reprint from the Nordiskt Medicinskt Arkiv. The increased size of this new edition is partly due to the addition of an introduction to the microscopic investigation of bacteria; but the active development of bacteriology in the last few years has also necessitated a re-elaboration and extension of all of the chapters. In the work, I have had two objects in view: the preparation of an outline adapted to bacteriological courses for physicians and veterinary surgeons, and a guide for those who are obliged to take up the subject at home without the assistance of an instructor, yet wish to carry out for themselves the fundamental experiments which are most important for pathology and hygiene. I have, therefore, not attempted to give an exhaustive presentation of the entire technology of the subject, but rather to describe the simplest and most easily managed apparatus and methods, so that the equipment of a home laboratory need not appear too expensive; while I have tried to describe these in a sufficiently elementary and detailed manner. Those who wish a more comprehensive treatise, are referred to the last edition of Hueppe's Methoden der Bakterienforschung (Wiesbaden, 1889).
